Her eyes filled with tears and rested on her shabby black dress-and this was the late queen of fashion-and her look seemed to say, "See how I mourn !" And it was true. There is often a whole world of

pathos in little trifles that involuntarily bear witness to the individual mind. "Madame," said I, "there is but one consolation-the worse things go in France, the more the Emperor is sure to be recalled. It is the Emperor alone who can govern France. They are like bad children, and require the master-hand of wholesome restraint and discipline."

"I do not wish to return-I suffered too much; but I trust that events will justify the Emperor. Surely the world must come to see what kind of people he had to govern. The Emperor knew that these people were in Paris-for twenty years he knew it, and he did not shoot them. He

"Madame," said I, "it is as though the Fenians ruled in London. The Reds are the same all over the world.

will do that. Let events speak. By and by Europe shall judge the Emperor fairly." I expressed a hope that the trials she had undergone in Paris had not injured her health.

"No," she replied. Then she continued : "I was forsaken by all the ministers .-Trochu, whom the Emperor had appointed, left me. They all left me and betrayed me. What could I do! I was alone.-Ah," she added, with an inspired look,

"it was my passion !" She turned her tearful eyes to heaven. "Her passion !" Could anything be more touching? Woman as I was, I could have died for her.

"I was alone," she repeated, as though in justification; "atterly abandoned. What could I do but fly? I was not afraid. I could look death in the face; but all had left me."

"Were the details of your Majesty's flight which appeared in the newspapers accurate?" "Yes," said she, "tolerably so. For

thirty days I was guarded by those men of Belleville. Oh, it was horrible! They took possession of the Tuileries. My only happiness was, that I suffered alone. The Emperor away and my boy safe. No! I could not have borne it had my boy been Again the inspired look came into the

peautiful Spanish eyes. "By what door did these wretches enter the Tuileries, madame?"

"Everywhere-by all the doors and the windows, too. They came down from the Place de la Concorde. I saw them com-

ing through the trees. They then broke over the fences into the reserved garden, and at last smashed the lower windows and broke open the doors. They came, too, on the other side, from the Place du Carrousel; black masses of men, pressing closer and closer; they, too, broke in everywhere. No one opposed them; the guards were gone. There were horrible cries, and screams and caths. From these thief-dogs I expected death; I saw it in their faces, these Belleville men; they wanted my blood. I was so weary I did not care; to live or to die was the same to me. For the last three days there was a change; more savage men came about me. I never left my room; I lay down a little on my bed for rest, but I did not undress; would not be murdered in my bed in my night-dress."

She made a little motion with her hand as she said this that I cannot describe.-It told of the delicacy of the woman, and the lofty decorum of the sovereign, that carefully gathers her robes around her ere she dies.

"Madame," said I, "had you fallen by the hands of those wretches, you would have lived forever in history and in poe-

have united the beauty and fascination of Mary Queen of Scots to the virtuous forti: tude of Marie Antoinette. It would have been a glorious immortality !" "Yes," she said, melting into the sweetest, merriest smile, "yes, that is all very

well; but I would like to enjoy yet a little in my life." "God grant you may, madame!" replied I.

The Empress then glanced at a clock. "You have come far to see me; you must return. Your train will be soon due ; you must not lose it." How I wished that time had ceased to be-how I longed to

go on listening to that musical voice and looking into those protean eyes! She rose. She was again the Empress-and stood there grandly calm, to receive my salutations. It was a rapid change from the fascinating woman to the lofty sovereign. She did not even offer me her hand ; she only bowed her head, and I re!rested backwards into the hall, where the lady in waiting received and conducted me to the door. The impression left on my mind was that

Marie Antoinette had been speaking to me escaped by a miracle from the Temple-Marie Antoinette younger and more womanly, without the proud austere reserve.
